With a clear presentation, *Ethics: Theory and Practice* educates readers about ethical theory and has them apply what they learn to specific classic and contemporary moral problems (lying, cheating, establishing ethical business practices, honoring ethical obligations in medicine, etc.). Jacques P. Thiroux first wrote this text 1977 in order to educate readers about ethical theory and its applications in a way that beginning students could understand. The result was an accessible text that isnt too technical and doesnt plunge into complex readings without sufficient background. The text is fully updated with global issues and non-Western ethical views. Keith W. Krasemann now continues Thiroux's efforts of making ethical ideas accessible to students. Besides updating the foundations of the text, Krasemann incorporates new and relevant material, most of which is often unique only to this text.
