BOOK SYNOPSIS

Built around key issues and concepts to provide a unified, progressive and communicative approach to learning Spanish. New to this edition: slices of Hispanic life which offer cultural insights; conversation sections to show how language and culture are interwoven; a chapter on global problems and issues; improved organization of presentation and practice; more communicative, lively, class-room tested exercises and activities. The use of four-color photographs, art and realia will greatly appeal to today's visually-oriented students.
